Best wishes...

*...and these are wishes that go over
the formalism of those who shared
this happy day,
experiencing with you
one of the most beautiful days of your life.
Catching these happy moments in images
we focused on the most important moments:
moments of tenderness, of emotion
and the ritual or solemn ones.
Therefore we dedicated this album
to you inside of which,
as if in a precious box,
you will find a magic word:
happiness;
which, when looking within,
you will find again and again.*
